

Lantmäteriet's role for the Swedish government and economy

Bengt Kjellson

Director General and Chief Executive

Lantmäteriet's task

To deliver public good!

Lantmäteriet's roles

Responsibility for

- **Mapping**
- **Cadastral**
- **Land registration**
- **Co-ordination for all kinds of geographic information from central and local government**

Our information

- **Authoritative data**
- **The basis for decisions taken every day in all parts of society**
- **Improves decision making**

Our processes and decisions

- **Solid definition of properties, their boundaries and rights**
- **Strong protection of ownership and other rights to land**
- **Attractive, transparent market for investments in real property**

Cadastral services

Make land available for housing and infrastructure investments

Meet changing needs

Cadastral surveyor investigates and balances interests

Land registration

Decide and collect stamp duty – 1 bn USD/year
Close cooperation with financial sector simplifies procedures and improves lending process
Register is complete, rights are guaranteed

Provision of property information

>1 mn enquiries/month

Information updated by Lantmäteriet, Tax administration and local government

Unique national id and addresses for each property

Extensive updating of public and private systems, thereby ensuring data is correct and up-to-date

Provision of geographic information

Everything happens somewhere

Basis for e-services and digitalization

E-government, digitalization and automated decision-making

- **Assessment for Property Tax purposes**
- **Register of dwellings, population register, the census and more**
- **Election roll**

Example – use of GNSS

- **Road construction: Road administration + construction companies**
- **Agriculture: >20 USD/hectar + higher yields**
- **Sea transport: increased draught 10 cm => 130' USD/ship**
- **Cadastral procedures: >1 hr/matter**
- **Etcetera!**

Conclusion

- **Difficult to estimate contribution in figures**
- **Users reluctant to disclose details**
- **The effects are considerable**
